WHO LET THE TIGERS OUT?

John D. O'Bryant School

of Mathematics and Science

Class of 2001

Boston Public Library

Dedication

Born and raised in the Roxbury community, Gustave Anglin never thought that he would be the first African American headmaster of an exam school in Boston. Mr. Anglin has made the John D. O' Bryant his home for the past 10 years. Added to the number of years served, as a headmaster there is much more to Mr. Anglin than meets the eyes.

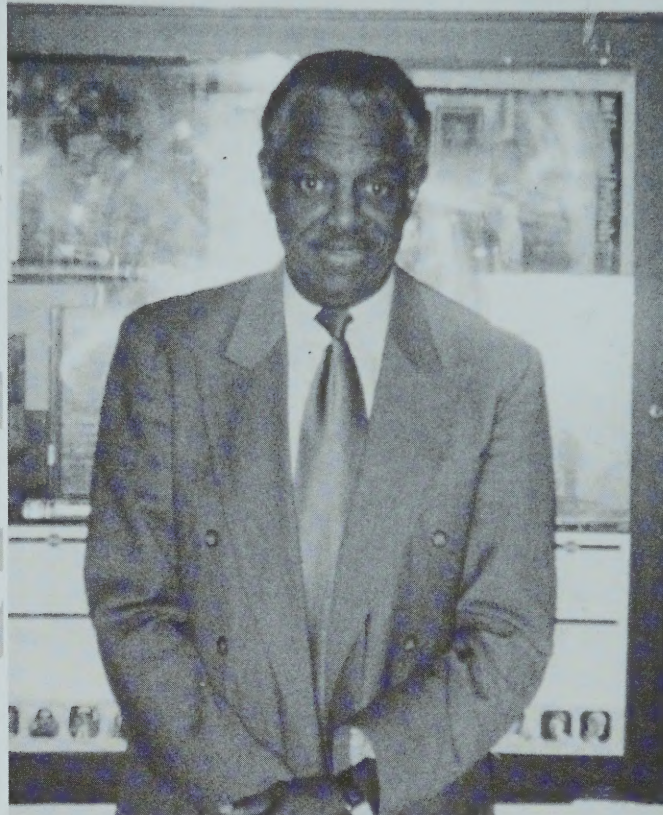

Mr. Anglin received his Bachelor's Degree from Suffolk University and he then went on to obtain his graduate degree from Boston State College. Ironically his first teaching job was at the old O' Bryant, then known as Boston Tech Annex where he taught history. He dedicated the next thirteen years to teaching at numerous Boston schools including Boston Trade, Boardmen's School and the Lewis Middle School. After this time he decided to take a year off from teaching and work for the federal government reviewing schools around New England. The long and winding road of life would lead him to his calling, becoming a headmaster.

Mr. Anglin has done wonderful things for our school since he started here back in 1991. Under his leadership we have received praise from accreditation members who said our school was in academically excellent condition and we have won the School Achievement Award for four straight years in a row which helped O' Bryant receive grant money to make our school even better. Mr. Anglin's final words of wisdom to the class of 2001: "Continue to set goals, be disciplined and stay focused because it is easy to get off track". Having spent the last 26 years as a headmaster, he states it is not easy to walk away from his life goal -wanting to help. He hopes that he will now be able to relax a little, although he wants to strive for excellence in education as a part timer.

The John D. O'Bryant School of Mathematics and Science would like to thank Mr. Gustave Anglin for his hard work and dedication in educating the inner city youth of Boston. On behalf of the class of 2001 and all the many lives he has touched we would like to say "We love you Mr. Anglin, and we'll miss you. We wish you the best of luck in your future."

Headmaster's Address

To the Class of 2001 I extend my personal and heartfelt congratulations for all that you have achieved. Your class has been truly outstanding having received more scholarships and awards than any previous class. This is a tribute to your pursuit of excellence and your ability to set and accomplish goals. During the past four years, I have witnessed your continued growth and maturation. I envision a bright future for all.

It is common knowledge that technology, math and science will play an important part in your future. The faculty of the John D. O'Bryant School of Mathematics and Science has done its best to prepare you for the challenges you will face in the twenty-first century. Today's economy demands specialized and often high tech skills. For those who possess these skills, the future looks bright. The task before you is to continue on an educational path that will enable you to reach your full potential.

Mediocrity can never be an option. You must always strive to be the best that you can be. Those who remain focused, set goals for themselves and are willing to work hard to reach those goals, enhance their chances for success. The sky is the limit for all who are committed to making their dreams come true. To make this happen you will need strength of character, the confidence to take risk, the ability to conquer your fears and a positive attitude.

Be not afraid to lift your wings and let your spirit soar. Dream and do, aspire and accomplish, and above all, enjoy life and be true to yourself. If you do you will discover what your parents, the faculty and I already know...your future is bright and it has no limits.

This is my final goodbye. After forty-one years of service in the Boston School System, I intend to retire at the end of this school year. I leave you with my best wishes for your continued success and a hope that your future will be as bright as your high school years have been.

I am extremely proud of your accomplishments and will always have fond memories of the Class of 2001. Best of luck.

Gustave Anglin, Headmaster

Who Let The Tigers Out?

*We have come along way
Since those days
when we played all day
Without a care
But right now, right here
In the year 2001
We have come
To be seniors
We rose up from being foolish juniors
And even sooner
We will be college students
From pole to pole
coast to coast
We have people we thank the most
From our teachers to our parents
It's obviously apparent
That without them
We would not have passed
We would have been 18 in a 7th grade class
This is our last time to shine
It's time to grow up
Who let the tigers out
I don't know
But there is no more to be said
Because it's done
We are the graduating class of 2001*

Dear Fellow Classmates,

It's been a long road traveled, but we still have many miles to go. We have been with each other through the good times and helped each other through the rough times. We are now set on a journey called the "Real World." This is a world where we must make intelligent decisions to accomplish our goals. The bonds we have made will last a lifetime. As we journey through the "Real World" the lessons we have learned shall guide us and the friends we have made shall comfort us. We soon will be faced with adulthood. As we face adulthood, it is up to us to take the mistakes we made earlier in life and use them to our advantage by learning from them. We also must understand one of the most important rules to a successful life, which happens to be that "hard work" pays off. Understanding that "hard work" is a necessity for a successful life will control your own destiny. A man once told me "the difficult we do now and the impossible we do later." Well, Class of 2001, the difficult is done, now let's set our eyes on the impossible.
